WELCOME TO BALDWIN'S 2026 CATALOGUE

HOURS FOR 2026:

OPEN APRIL-NOVEMBER

CHECK FACEBOOK FOR HOURS, HOLIDAYS OR CLOSURES

Welcome to our 2026 catalogue, celebrating 31 years as a family owned and operated nursery. Our success over these years is due to the support we have from our customers, both new and returning.

As always, we take pride in growing and selling top quality plants: perennials, shrubs, trees, fruit trees, natives, and more. All of them are sourced from other Canadian nurseries or grown from seed/cutting right here.

We have several terrific collections of specialty plants including magnolias, native plants, deer-resistant plants, tree peonies and grasses. We are proud to have the largest inventory of native plants, from seedlings to large species, in our region.

HOW TO SEARCH THIS CATALOGUE

Whatever pdf program you're using (usually Adobe Acrobat or Acrobat Reader) there is a search option. Usually it's under the Edit Menu, or you can search using Command F in Apple, Ctrl/Command+F in Windows. Type in your item eg. Peony, & you'll have a variety of choices to go through.

In an effort to help you seek out specific types of plants, we list types of plants in categories, but in the case of general category of trees, shrubs, perennials, etc, we're alphabetizing them by common name (with Latin name included). We also are including lists of deer-resistant, shade, and native plants for your particular interest (or challenge).

OUR GUARANTEE

We guarantee our plants to be true to name and healthy when they leave our property, and for the current growing season only.

How you treat your new plants affects how well they do: after-care is especially important in their first season, both pre- and post-planting. Adequate watering, mulching and correct planting technique will help ensure success with your new leafy acquisitions. If you have any questions or concerns about your plant's care, please talk to us at the nursery or call or text ASAP. We are always happy to help with any advice on a solution to most problems!

Thank you again for your support over the years! Happy Growing,

Rob & Susan

NATIVE PLANTS

We are proud to carry a large collection of native plants, from shrubs and trees to perennials including grasses.

Mountain maple
 Red maple
 Striped maple
 Sugar maple
 Mountain ash
 Sumac
 Red, White and Black spruce
 Balsam fir
 Pine
 Hemlock
 White birch, Yellow birch
 Beaked hazelnut
 Black cherry
 Witch Hazel
 Pussy Willow
 Service Berry
 Canada Holly
 Viburnum cassinoides (witherod)
 Rhodora
 Labrador Tea
 Northern bayberry
 Red Twig dogwood
 Spiraea alba, white meadowsweet

Spiraea tomentosa, steeplebush
 Rosa virginiana
 Highbush cranberry
 Juniper
 Bearberry
 Native sweet pepperbush
 Fothergilla
 Elderberry
 Daphne
 Aronia
 Sweet Fern
 Teaberry
 Inkberry
 GRASSES
 Spartina
 Marram
 Blue dune grass
 Karl Foerster
 Bluestem
 sweetgrass
 cattail/rushes

FERNS

Christmas
 Cinnamon
 Ostrich
 and others

PERENNIALS

Anemone
 Cardinal flower
 Bloodroot
 Hepatica
 Marsh marigold
 Blueflag Iris
 Blue-eyed grass
 Brown eyed Susan
 Shasta daisy
 Pearly everlasting
 White and pink turtlehead, Chelone
 New England aster
 Lamb's ears
 Ladies mantle
 Echinacea pallida
 Pasque flower, prairie crocus
 Water lobelia
 Vernonia, New York Ironweed

CONIFERS

These handsome trees and shrubs look good all year long, with some of them changing colour in fall and winter. They are excellent for increasing winter interest in your garden, or for forming the “bones” of a bed or landscape. They can be effective planted in groupings, or used as eye-catching specimen trees or shrubs planted as a focal point.

FIRS (ABIES)

Balsam fir, *Abies balsamea* Nana, Prostrata

Abies koreana; Korean firs, dwarf forms: Golden Glow, Kristallkugel

Korean fir, *Abies koreana* Aurea, Silberfedder, Silverlock, Tundra

Rocky Mountain fir, *Abies lasiocarpa* *Glauca Compacta*

FALSE CYPRESS (CHAMAECYPARIS)

Chamaecyparis Glauca Blue Alaskan cypress, Pendula Weeping

Dwarf hinoki cypress *Gracilis*, Nana

C.s obtusa Kosteri, *Tetragona Aurea* *C. pisifera*, *Filifera* Threadleaf, golden threadleaf

EASTERN HEMLOCK

Tsuga canadensis, hemlock

JUNIPER

Juniperus chinensis Blaauw

J.communis native juniper, Gold Cone

J. horizontalis Wiltonii

procumbens Nana Japanese juniper

J.sq. Blue Star, Blue Rug, Icee Blue, Bar Harbor, Grey Owl, Calgary Carpet, Green Carpet

J. crocumbens nana Japanese garden juniper

LARCH (LARIX)

Larix decidua, Pendula weeping larch, Horstman's Recurved

Larix kaempferi, Japanese larch, Dwarf Blue

SPRUCE (PICEA)

P. St. Mary's Broom

P. Nidiformis Birdnest spruce

P. Christina

P. White Spruce

P. Conica Dwarf Alberta Spruce

P. Skylands (golden spruce)

P. Glauca Globosa

P. Baby Blue Eyes

P. Procumbens

P. Pendula (weeping)

PINE (PINUS)

P. Extra Blue

P. Vanderwolfs Pyramid

Compact Gem

Mugo Pine

Austrian Pine, Hornbrookiana

P. omorika Nana

P.trobus Blue Shag , Nana Sea Urchin

Pinus sylvatica Sentinal

P. thunbergii, Japanese Black Pine,

Kotabuki Yatsubusa

OTHER CONIFERS

A selection of conifers that are one of a species or otherwise unusual.

Dawn redwood, Gold Rush

Microbiota decussata, Russian cypress

Sciadopitys verticillata, Japanese

Umbrella-pine

Taxus x Hicksii Hicks Yew

Thuja Emerald Smaragd

T. Nigra Black cedar

T. Sunkist cedar

Thujopsis dolobrata Japanese cypress

DWARF EVERGREENS

These compact evergreens are quite slow-growing; it can take 20 years or more for them to reach their full height or width. They rarely require any pruning, and you can have a quite a variety in a small yard.

C. obtusa Nana *Gracilis*

C. Tetragona Aurea

C. Graciosa

C. obtusa Nana *Gracilis* Aurea

C. Compacta

C.pisifera *Filifera* Nana

C. pisifera Filifera Nana Aurea
 J. procumbens Nana
 J. Blue Rug
 J. Blue Star
 J. Blauuw
 P. mariana Nana
 P. Nidiformis Birds nest spruce
 P. pungens Glauca Globosa and
 St. Mary s Broom
 P. glauca Conica dwarf Alberta
 spruce

BROADLEAF EVERGREENS

Along with the conifers, broadleaf evergreens help to form the bones of a garden bed or yardscape all year long, and especially in winter. Some broadleaves are grown for their flowers, others primarily for their foliage.

Berberis verruculosa, evergreen barberry
 Boxwood: Green Velvet, Green Mountain, Green Gem
 Ilex crenata (inkberry) SkyPencil
 Ilex Blue Princess & Blue Prince evergreen holly
 Yucca (Adam's Needle) regular & Colour Guard (variegated)

RHODODENDRONS AND AZALEAS

Rhododendrons and hardy (deciduous) azaleas do very well in acid, humus-rich but well-draining soil. We carry a wide range of varieties, from dwarf size to large shrubs. Do check out the annual display at the Kentville Agriculture Station in late May-early June.

LEPIDOTE (SMALL LEAVED)
 Landmark (fuchsia)
 Olga Mezitt
 PJM Elite (pink blooms, red foliage)

Ramapo (purple)

ELEPIDOTE (LARGE LEAVED)
 Boule de Neige
 Blue Baron
 Capistrano (yellow)
 Catawbiense Album (white)
 Dark Lord
 Florence Parks
 Goldprinz
 Holden's Fuchsia
 Holden's Pink Flare
 Holden's Red
 Nova Zembla (fuchsia-red)
 Olga Mezitt
 Percy Wiseman (yellow/pink)
 Purple Passion (purple)
 Roseum Elegans

WITH INDUMENTUM
 Ken Janeck, Kodiak

AZALEAS
 Unless noted, our azaleas are all deciduous varieties.
 Cannon's Double (double cream/ pink)
 Girard's Fuchsia
 Girard's Hotshot
 Girard's Pleasant White
 Hiro Crimson
 Lights series: Mandarin Lights (orange) Northern Hi-Lights (white w. yellow marks), Rosy Lights (pink), White Lights (white)
 Millenium (red)
 Stewartstonia

JAPANESE MAPLES

Japanese maples can be diva-like in our garden, but they are so worth nurturing. Make sure you give yours adequate winter protection from wind, & excessive snow cover that can cause limb breakage. Our varieties include the following:

Bloodgood; hardiest variety, deep red
 Emperor: mid-sized, hardy,

rich red foliage.

Inaba Shidare: lacy burgundy leaves throughout summer turning brilliant crimson in fall

Seiryu Upright cutleaf Japanese maple

Shishigashira Heavily curled green leaves Foliage becomes purple-red with orange-red patterns in autumn

Sango Kaku Coral bark maple: lime green foliage which emerges coral-pink in spring gorgeous coral coloured twigs

Viridis weeping green leaf

MAGNOLIAS

Many magnolias grow very well in Atlantic Canada. As with any plant, choose the right size magnolia for your growing conditions. Some are compact and ideal for city yards, while others can grow to be commanding trees.

Black Tulip: deep purple cup shaped flowers

Butterflies: Quintessential yellow favourite

Felix: Massive, fragrant purple-pink flowers

Galaxy: elegant pyramid form, dark pink flowers

Gold Star: Another yellow variety

Liliflora Nigra: spreading, shrublike, dark purple red blooms

M. loeblerii

M. macrophylla Ashei: huge leaves and white flowers

M. Marilyn's Choice Columnar white flowers (*photo Plants Nouveau, top next column*)

Tinkerbelle:

M. tripetella: Umbrella magnolia

Leonard Messel: early blooming frost resistant, bicolour

Ann, Betty and Susan from the Sisters series

Rustica Rubra: purple pink flowers on large shrub (photo)

M. Yellow Bird: One of the best yellow magnolias

Magnolia soulangiana: saucer magnolia, pinkish white flowers

DOGWOODS

The dogwood family includes a number of hardy native shrubs that are popular as shrubs for providing food for wild-

life, especially birds, or for showy, colourful twigs in winter. Then there are the showoffs—the *Cornus kousa* dogwoods with their long-blooming, very showy flowers.

Cornus sericea, red-twig dogwood; *Flaviramea*, yellow-twigged;

Arctic Fire

Cornus kousa Milky Way

Cornus kousa Scarlet Fire

Cornus x Venus

Cornus mas Cornelian Cherry

Cornus kousa x chinensis

Satomi popular pink flowered form

Snow Tower: Columnar form, fall colour, large white flowers

Summer Fun: pink margins on new growth, bicolour foliage; white flowers, excellent red orange fall colour

Rosy Teacups: very pink flower, darker edges, red fall foliage

Scarlet Fire: rich deep pink flowers, good disease resistance, drought tolerant

REDBUDS

Native to North America, these handsome trees flower in the early spring, then leaf out with gorgeous heart-shaped foliage.

There are numerous cultivars available, including several with rich purple foliage. We carry:
 Cercis native form, Ruby Falls, Lavender Twist, Forest Pansy and **Hearts a Fire New in 2026**

SHRUBS

Shrubs and trees are excellent choices for gardeners wanting low-maintenance plants for their properties. At Baldwin's you'll find native species along with some of the latest and hardest of cultivars.

HYDRANGEAS

There are so many different types of hydrangeas that it can be very confusing for the new gardener. The varieties we carry are proven to do well in our climate. Of these, only two are pH sensitive so there may be some variation in flower colour.

CLIMBING HYDRANGEA: White lacey flowers festoon this glossy-leaved climber

ANNABELLE TYPE HYDRANGEAS (no colour change, very hardy): Incrediball, (white) Invincibelle Spirit Ruby (rose pink), Mini Mauvette (pink, dwarf)

LACECAP (pH sensitive): Endless Summer Twist & Shout, Blue Billows, Tuff Stuff

MOPHEAD VARIETIES: Endless Summer Original, Let's Dance Rhythm and Blues, Endless Summer Blushing Bride

PEE GEE TYPES: (conical flower heads, good for drying) Bobo, Limelight, Little Lime, Firelight, Vanilla Strawberry, Quick Fire

Climbing hydrangea: White lacey flowers festoon this glossy-leaved climber.

VIBURNUMS

As with the dogwoods, Viburnums include some sturdy native varieties notable for their fruit, loved by wildlife and birds, and for their great fall colour. There are also more exotic

showy-flowered and/or highly fragrant viburnum varieties. We carry a few of each.

- V. cassinoides Wild grape, withered
- V. trilobum, Highbush cranberry
- V. tomentosum Mariesii doublefile viburnum
- Viburnum x carlcephalum (very fragrant)

WITCH HAZELS

- Arnold Promise (spring blooming)
- Hamamelis virginiana (fall blooming, native)

OTHER SHRUBS

- Berberis Aurea Nana barberry
- B. thunbergii Rose Glow
- B. thunbergii Concorde
- Callicarpa Pearl Glam beautyberry** (photo below via Proven Winners)
- Canada holly (Ilex verticillata): Southern Gentleman, Winter Red

Clethra: Sixteen Candles, Ruby Spice
 Cranberry Cotoneaster
 Hardy Hibiscus Minerva, Red Heart Woodbridge Aphrodite and Blue Bird.
 Rosa virginiana
 Large flowered hibiscus: Starry Starry Night
 Summer Kerria (double form)
 Lilac: Bloomerang Purple (reblooms), Miss Kim dwarf Korean, French Ludwig Spaethe, Mme. Lemoine, Sensation
 Ninebark: Diabolo
 Quince: Texas Scarlet
 Rhodora, wild purple rhodo
 Mock orange Minnesota
 Snowflake
 Sambucus Lemony Lace
 Tamarix, salt cedar Pink Cascade
 Snowberry, Pinky Promise
 Sweet Fern (Comptonia)
 Tulip Tree (Liriodendron)
 Weigela Wine and Roses, variegata
 White Fringe Tree (Chionanthus virginicus)
 Willow, Nishiki (dappled)

HARDWOOD TREES

What's a garden without a few stately trees? If you're impatient to have big trees in your landscape right away, we do have some larger-sized trees, as well as several fast-growing species. Living on a small property, or worried about power lines? We have large shrubs/small trees for most situations.

American hazelnut
 American hop hornbeam (Ostrya)
 American mountain ash
 Aesculus glabra, Ohio buckeye
 Beech, purple Riversii, Purplea
 Birch, yellow
 Birch, paper
 Betula utilis var. jacquemontii
 Black walnut
 Buckeye, red
 Catalpa

FLOWERING CRAB: Makamik, Tina (Standard) Red Jade, Red Baron, Dolgo, Royal Beauty, **Royal Raindrop**, **Prairie Fire**

Ginkgo biloba
 Golden weeping willow
 Kentucky coffee tree Gymnocladus dioicus
 Liquidamber, sweet gum, Slender Silhouette
 Nyssa sylvatica, Tupelo, black gum
 Japanese silk lilac Ivory Silk
 Juglans cinerea, Butternut
 Stewartia pseudocamilla
 Linden, ****Very important pollinator tree**
 T. americana American basswood
 Tilia americana Redmond linden
 Weeping pea shrub (Caragana Walkers)

MAPLES (ACER)

Acer platanoides, Princeton Gold
 Paperbark Maple
 Harlequin Maple
 Royal Red Maple
 Native Red maple
 Native Sugar maple

FRUIT TREES & SHRUBS

We carry a number of fruit trees and berry shrubs suited for most Maritime gardens. Please check with our knowledgeable staff to confirm whether you need a second variety or plant for cross-pollinating purposes.

APPLE TREES: Ambrosia, Baldwin, Cortland, Empire, Gala, Golden Russet, Gravenstein, Honeycrisp, Ida Red, MacIntosh

Highbush blueberries

PEAR: Bartlett, Clapp

PEACH: Reliant

Plum: Stanley (self fertile)

VINES

Clematis Jackmanii

Clematis Ville de Lyon

Clematis virginiana, Virgin's Bower (N)

Hydrangea climbing

Wisteria sinensis Blue Moon, Amethyst falls

PERENNIALS

We choose our perennials to provide a maximum amount of bloom time throughout the season, some for sun, others for shade, to attract pollinators, (and hopefully not deer). **New**

in bold text

Actaea, (snakeroot, cohosh) *Atropurpurea*, Brunette

 Trillium erectum (red)
 Trillium Grandiflorum Snow
 Trillium Luteum Yellow
 Uvularia grandiflora Bellwort or Merrybells
 Veronica (speedwell) Red Fox, Royal Candles First Love
 Vernonia (New York Ironweed, Native)

FERNS

Athyrium Lady in Red Japanese painted fern
 Athyrium metallicum Japanese painted fern
 Athyrium Ghost painted fern
 Dryopteris Woodfern (native)
 Matteucia Ostrich fern (native)
 Onoclea sensibilis Sensitive Fern
 Osmunda cinnamomea Cinnamon fern (native)
 Polystichum acrostichoides Christmas fern (native)

TREE PEONIES

These beautiful plants produce a show-stopping display of massive flowers every spring, in rich colours. Winter protection is recommended for the first couple of years while the plants are establishing themselves.

Hana Kisoi: semidouble, shell pink blooms
 High Noon: Yellow, double (*photo p. 13*)
 Kamata-nishiki: light purple
 Kaow: rosy red double, yellow stamens visible
 Kinkaku: double yellow with orange-red on edge of petals
 Kinshi: enormous double yellow flowers
 Kokuryu nishiki: rich red (Black Dragon Brocade)
 Renkaku: semi double white
 Rimpoh: rich semi double red
 Shimodaijin purple-pink
 Shima-nishiki red/white variegation

GRASSES

There are grasses for pretty much every growing condition. Ornamental grasses may not look like much in the spring, when they are clumps of brownish grey stubble. By midsummer you'll have fountains of handsome foliage, and some flowers on early-season varieties. Fall and winter is when some varieties, like the miscanthus and panic grasses, come into their own, as they provide terrific winter interest. Try planting grasses out with dwarf and regular sized evergreens for a fan-

tastic display of colour and texture throughout the gardening year.

NOTE: The few spreaders we sell are for groundcovers, bank stabilizing, and other places where strong roots and spreading growth habit is needed.

- Ammophila arenaria marram grass
- Calamagrostis Overdam feather reed grass
- Calamagrostis Karl Foerster
- Carex grayi Gray's Sedge
- Chasmanthium Northern Sea Oats, River Mist
- Deschampsia Goldtau: gold dew tufted hair grass
- Elymus Wild Rye (N)
- Glyceria maxima Variagata Semi aquatic mannagrass
- Hakonechloa All Gold
- Hakonechloa Aureola
- Helictotrichon sempervirens blue sapphire grass
- Imperata cylindrica Japanese blood grass Red Baron
- Leymus arenarius Blue Lyme Grass
- Miscanthus: Huron Star; Morning Light; Little Zebra; Stric-
tus Porcupine grass
- Miscanthus giganteus; Lottum
- Miscanthus purpureus Purple Flame grass
- PANICUM VIRGATUM, SWITCHGRASS/PANICGRASS varieties:
Heavy Metal; Dallas Blues; Rotstrahlbusch; Prairie Sky
Shenandoah; Thundercloud
- Pennisetum (fountain grass) Hameln Dwarf Fountain Little
Bunny, Karley Rose, Redhead
- Schizachyrium Little Bluestem (native)
- Spartina pectinata
- Sporobolus, prairie dropseed NEW**
- Fargesia dracocephala Green Panda Bamboo

DEER RESISTANT PLANTS

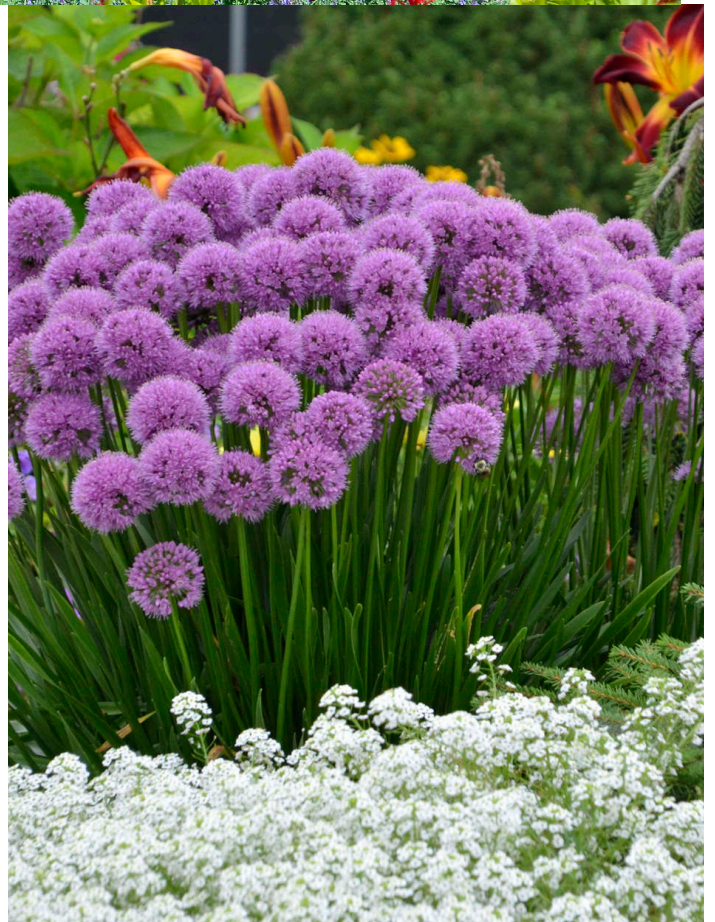

While many plants may be deer resistant, they are not deer PROOF (unless grown indoors). Often plants with fuzzy foliage, or fragrant/pungent foliage, tend to deter those looking for buffet snacks. Bear in mind a hungry deer will try anything once, even if it's not meant to be palatable to them. One way to deter them is to plant selections like these in front of more tempting varieties. Some good choices include:

- Anemones
- Astilbes
- Baptisia
- Barberry
- Bee balm
- Bleeding heart
- Brown-eyed Susan
- Boxwood
- Columbine
- Conifers (most)

- Coreopsis
- Cotoneaster
- Cranesbills (hardy Geranium)
- Culver's Root (Veronicastrum)
- Daphne
- Delphinium
- Ferns
- Ornamental Grasses
- Hellebores
- Iris
- Joe-pye plant
- Northern Bayberry
- Lavender and other herbs
- Lilac
- Lily of the Valley
- Monkshood
- Ornamental grasses
- Peonies and tree peonies
- Pinks
- Prairie Crocus
- Queen of the Prairie
- Red hot poker
- Russian Sage
- Sambucus (elderberry)
- Sea holly
- Yarrow

We also offer

Seaboost fertilizers & Irish moss

Cast Art Cement garden art

Compost & bark mulch

Gift certificates
